

Equip your HSE professionals with NOSA's COVID-19 workplace safety implementation training

It's vital that you, and your employees responsible for managing safety in your workplace, understand how to implement HSE systems in your organisation in alignment with COVID-19 workplace safety guidelines.

We invite you to participate in our one-day webinar programme, entitled COVID-19 Employer Workplace HSE Implementation Training. It has been created specifically for you and those employees responsible for HSE implementation of the new COVID-19 safety processes at your workplace. The training will cover OHS Act sections 8, 9, 13 and 14; RHBA; COIDA; NEM: WA, as well as COVID-19 guidelines developed by NOSA. Employees will receive an attendance certificate that confirms their understanding of the training provided.

Price: R870 (incl. VAT) per attendee
